

Facility Safety Identification

# FRONT GATE TO BACK DOCK

Use this step-by-step tour to gain ideas and learn best practices for implementing safety identification within your location.

## **1** Front Gate

Facility identification starts at the front gate. A well-marked facility adds pride, supports safety, and reinforces corporate branding.

*Page 4*

## **2** Parking Lot

Traffic control is central to safety in and around the building. From parking signs to speed bumps and bollards, we have it.

*Page 6*

## **3** Front Office

A warm greeting sets the tone. A front office is great for banners, safety scoreboards, wayfinding, and much more.

*Page 8*

## **4** Production Entrance

PPE-ID™ Charts help reinforce what safety equipment should be worn in a facility. The production entrance should remind all employees and visitors of the proper safety requirements.

*Page 10*

## **5** Production Floor

Stock and custom signs, 5S Store-Boards™, Site-Boards™, and more... production floors need the safety and organizational solutions we offer.

*Page 12*

## **6** Warehouse

Keep your warehouse area well marked by using Floor Markings and LED Sign projectors. These items will assist you directing traffic and ensuring safety for your employees.

*Page 16*

## **7** Back Dock

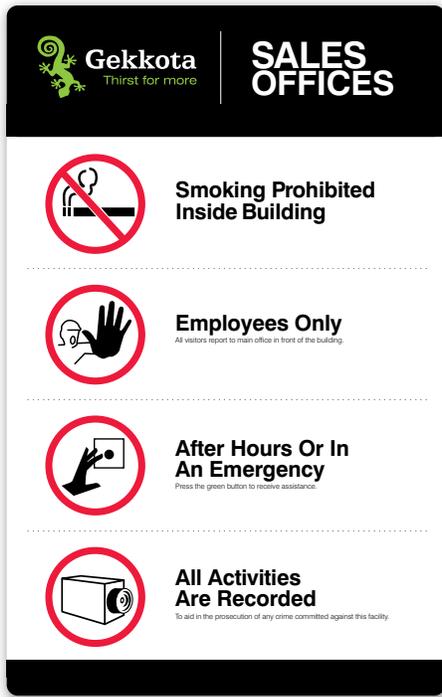

The back dock presents the last chance to make a great impression, making it a key area to post critical safety information.

*Page 18*

# Front Gate

The front gate is where safety starts at your facility. It's where you make the day's first impression on employees and visitors alike. Make that first impression a BIG one by utilizing one of our Signal Digi-Day® Outdoor Electronic Scoreboards. These signs are not just intended for large facilities. They can be placed in a wide variety of locations, including parking areas, employee entrances, and more. We can meet your space requirements!

**Premises Signs**

There may be crucial information that you need to convey to your visitors as they enter the premises. We offer signs like: No alcohol or drugs allowed on-premises!, Security camera in use, All visitors must register at the office. Premises signs help you create and protect the environment you want at your establishment.

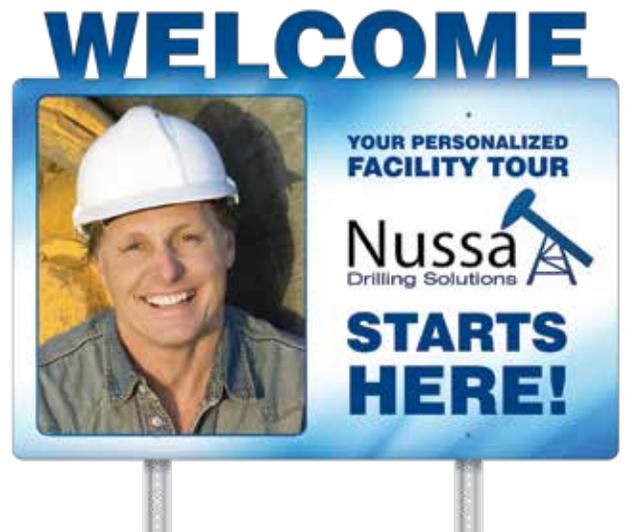

**Directional Signs**

Post directional signs to safely direct and regulate the flow of vehicles and pedestrians in and around parking areas, dock areas, and roadways. Also clearly mark special areas such as employee or delivery entrances.

**Fence-Wrap™**

Your fence is a billboard waiting to happen. Fence-Wrap™ signs are large banners that can inform visitors of a construction area or any other message you need to present.

**Custom Signs**

You do not have to settle for cookie-cutter designs. Create custom signs that use your words and include your company logo to get the most out of your signage.

Contact us for a detailed quote.

## **2** Parking Lot

Facility safety identification and custom signs do not stop at your organizations entrance. Gone are the days of ordinary employee-of-the-month or reserved parking signs. Show employees, contractors, and visitors you're serious about motivation, creativity, pride, and safety. Unique parking area signs help to promote your facility as anything but ordinary. Show them that your facility is extraordinary!

**Parking Signs**

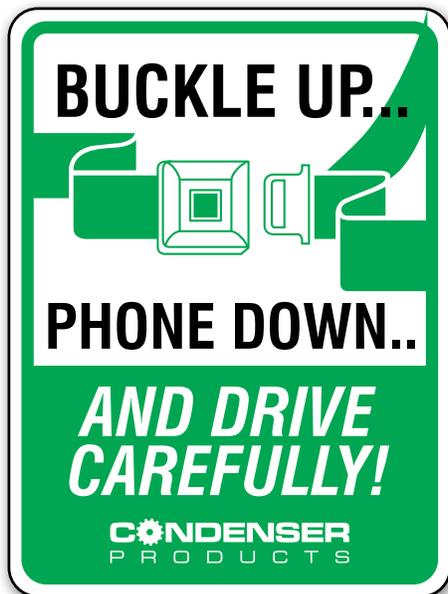

Clearly mark designated parking spots such as handicap, expectant mother, visitors, and no parking zones.

Reverse side can feature a No Texting While Driving message ▼

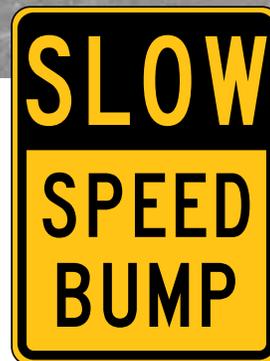

**Parking Permits**

Make it quick and easy to recognize employees, contractors, and other authorized vehicles with hanging parking permits. Choose from standard mirror-hanging permits, window clings, or no-tear options. Add safety messages to make them fun and unique for your business!

**Safety Signs**

Communicate important security requirements through descriptive safety signs. No trespassing, restricted area or alarm notifications are just some of the informative signs that should be incorporated around your building.

**Speedbumps and Signs**

Managing traffic speed is essential in any parking lot. Yellow and black striped rubber speed bumps force drivers to slow down. Do not forget to add signs to warn drivers of speed bumps ahead!

## 3 Front Office

As visitors, contractors, and employees move from your parking area to the front office, they will continue to see a consistent theme of motivation and safety carried throughout. Give your front office the “edge” with a Visual Edge™ Motivational Sign, Campaign “Kick-Off” Banner, and Evacuation Map Holder; classy, elegant, and branded to your personalized specifications. Positive comments are sure to follow, and so will an improved safety record.

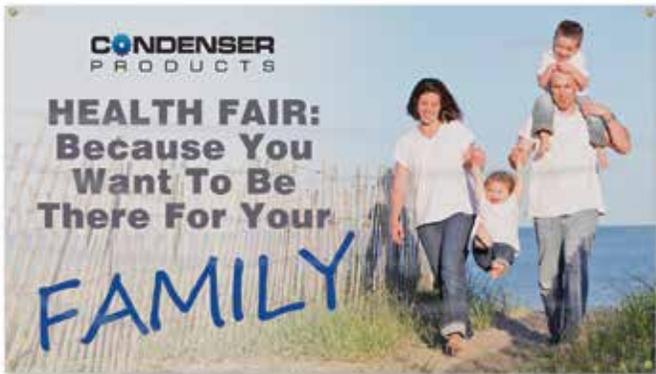

### Room Signs

Make sure all doors are clearly labeled with a room sign. Designated areas should be marked with an "Authorized Personnel Only" or similar sign. Your signs can be customized to highlight your branding look and add personalization to your office.

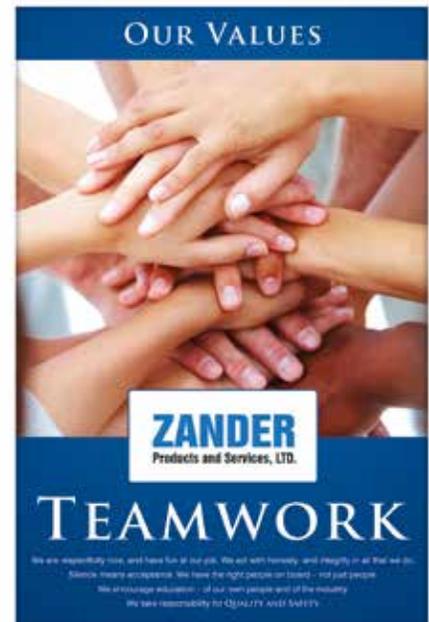

### Evacuation Signs

Make sure employees and visitors make it to safety in an emergency. Make a path to safety with evacuation maps, route signs and even post evacuation assembly areas outside.

### Banners

Banners shout for attention and are a perfect way to highlight current promotions or events. Get them in whatever size you need, vertical or horizontal, to fit your space.

### Motivational Signs

Proudly display your company's guiding principles or add motivational signs to your front office. They add personality and make your front office memorable!

# 4

# Production Entrance

The entrance way to your production floor is an important transitional area. Employees, from front office locations to back-dock shipping areas, must be on the same page for your overall safety program to prove successful. By carrying a consistent theme and message, from front office areas to the production entrance and beyond, you're sure to have buy-in at all levels.

# Safety...

## Our Safety Mission

A primary goal of this company is to eliminate or control both known and potential safety and health hazards which our employees face on the job.

In order to do so we must adhere to the following guidelines:

- Safety and health responsibility, management to every worker on her own safety.
- Maintaining a safe environment is a priority.
- It is everyone's correct them or manner.
- Where hazards are eliminated, they engineering or a final precaution personal equip
- Every individual work safety. Sh inadequately tr procedure, he o discuss the pro supervisor.
- As a condition c employee must manner.

### Safety Posters

Safety posters offer reminders to keep safety top-of-mind when entering the production floor. They can be general safety messages or specific to falls, hygiene or other areas of concern for your facility. Bilingual safety signs are available.

### Digital Signs

Measure noise levels in the workplace with our Decibel Meter Signs, and motivate more safe working days with our Digi-Day® 3 Electronic Scoreboards. These signs are lightweight tamper-proof durable and come with a remote control.

### Safety Gear Signs

From hard hats to protective eyewear or protective shoes, let your employees and visitors know what personal protective equipment (PPE) is required upfront.

# Production Floor

Safety Glasses   
Required In All Areas  
Beyond The Red Line.

### Restricted Area Signs

Some areas are best left to only those who have the training and need to be there. Post restricted areas to keep employees and visitors safe.

# 5

# Production Floor

The production floor is where most occupational injuries occur, and this is where safety and organization are key. There are a variety of ways to keep safety front-and-center on your production floor, warehouse floor, or any other production-oriented location. 5S Site-Boards™, Store-Boards™, and PPE-ID™ Charts help make it easy to track Key Performance Indicators (KPI's), in addition to locating and organizing tools and safety equipment.

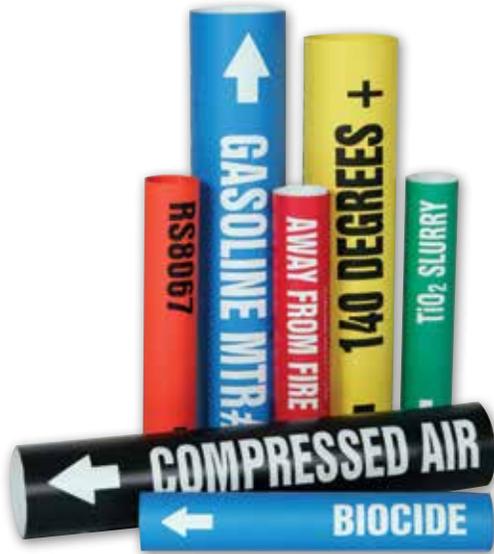

**Hazard Communication**

Communicate hazards in the environment with NFPA placards, a custom hazard communication sign, or our HazCom products. Essential to have in any facility, GHS safety data sheets (SDS) centers create the perfect way to communicate the hazards of chemical products.

**Bilingual Signs**

Prevent language barriers in the workplace with bilingual safety messages. French, Spanish, and other translations are available so that you can customize your signs and communicate key safety messaging.

**Pipe Markers**

Marking and identification of contents in pipes and piping systems is important to safety and maintenance. Pipe markers are used to visibly identify contents, flow directions, and hazard classification.

Contact us for a detailed quote.

**5S Boards**

5S Boards are a simple visual tool that helps employees keep work areas organized, efficient, and safe. Choose fixed, wall, or drawer boards to fit your needs and keep your production area free of clutter.

**Posts and Chains**

Control pedestrian traffic and directional pathways with a high-quality safety post and chain. Our durable, unique, industrial designed posts and chains are ideal for any facility.

**Emergency Identification Signs**

Highlight essential safety areas and items with the proper signage. Fire extinguishers, eyewash stations, exit routes, and exits should all be clearly marked with signs.

**QA APPROVED**

**INVENTORY**

NO.	DATE
COUNT	BY

**Labels**

Whether you are notifying users of a recent quality assurance inspection or a yearly inventory audit, we have the labels for all your needs.

**Slip-Gard™ Floor Signs**

Inform all personnel that through traffic must use a specific walkway. Properly mark areas that require through traffic to take a specific route.

**Lockout/Tagout Devices and Tags**

Any machine that is being worked on should have a lockout/tagout system in place. This prevents the accidental use of the machine while someone is using it and can save lives. No safety program is complete without proper security devices in place.

## 6

# Warehouse

Keeping facilities compliant and employees aware is crucial in eliminating hazards and mistakes in the warehouse. This could be as simple as having racks properly labeled or implementing fall protection where needed. Floor markings are a great way to mark restrictions, show flow of traffic, and indicate restricted areas.

**Floor Markings**

Make use of your floor space with Tough-Mark™ Heavy-Duty Floor Marking. Mark off forklift traffic lanes, label aisles, and organize your production floor by making use of your floor space to communicate.

**Safety Signs**

Mark a lane in your warehouse where forklifts are not permitted, or identify exits and other essential safety messages your facility requires to inform, protect, and motivate the workplace.

**LED Sign Projector**

A perfect solution for generating signs in areas where conventional wall and floor signs are difficult to apply or will not hold up due to their environment. An LED sign projector is a great way to use your space when you need to change your message on occasion. With interchangeable signs, this projector can put your message on floors, walls, or any flat surface.

## **7** Back Dock

Don't forget facility identification for your back dock, where working safely plays a critical role in fulfilling customer orders. Your customers benefit when a product leaves your facility promptly and in a cost-efficient manner. You've made it! You now have increased employee buy-in, reduced costs that directly benefit your bottom line, and a motivated workforce. Ready to personalize your safety program? See the back cover for contact information.

**Loading and Unloading Signs**

Signs displaying the location and regulations for loading and unloading help prevent confusion and improve efficiency and safety.

**Package Safety Labels**

Keep labels handy to properly mark outgoing packages that may be flammable, fragile, or contain dangerous items like lithium batteries.

**Banners**

Banners can make your most important messages impossible to miss. Customizable to nearly any size, vertical or horizontal, a banner can identify your building, direct traffic, or highlight a message you want visitors to your back dock to know.

## Custom ... Because Your Facility is Unique

Customizing your safety signage keeps your company top of mind with your employees and customers while reinforcing your commitment to safety.

Whether you need a custom message, a personalized design with original imagery and logos, or require a unique shape or size, our "Yes, We Can!" approach will shine through when we create the right sign, label, tag, or floor marking solution for you.

### Custom Safety Identification:

- No Set-Up Fees
- Unlimited Design Options
- No Minimums
- Language Translations Available
