Glove visual inspection

Glove electrical testing

Gloves ready to be marked after testing

COMPLIANCE

OSHA, ASTM and NFPA standards mandate the use and testing of in-service rubber insulating equipment to protect workers from electrical hazards. The Voltgard Test Lab is outfitted with state-of-the-art equipment to perform full-service testing and recertification of rubber gloves, sleeves, blankets, line hose, hotsticks, hoods, grounding sets, jumper cables, dielectric footwear and insulating hand tools – all to applicable industry standards.

CONVENIENCE

Let the Voltgard Original Rubber-Goods Change-Out Program unburden you from the coordinating, organizing, inventorying and scheduling of multiple rubber insulating product types, sizes and quantities, while ensuring you safe and timely compliance. Developed more than 30 years ago in response to customers’ needs and regulatory requirements, the Original Rubber-Goods Change-Out Program is the industry’s first structured, professionally-managed program. It provides a hassle-free, start-to-finish solution that monitors, tracks and manages your rubber insulating products’ in-service use and testing intervals for you so that your workers can focus on other work priorities while staying safe and productive!

CUSTOMIZATION

The Voltgard Test Lab extends its best practices to tailor a program to your specific needs. Our electrical safety experts deliver custom and personalized services for a wide variety of customers, including very large, multi-crew, multi-facility electric, wind, cable/telecom and gas accounts to medium-sized, utility, co-op and manufacturing companies – each with their own unique requirements. With a commitment to continuous improvement, the Voltgard Test Lab is uniquely qualified to develop, implement and manage your rubber goods program!

All inspection and testing conducted by our Voltgard Test Lab are performed in strict accordance with applicable ASTM specifications.

The Voltgard Test Lab at Saf-T-Gard International is a NAIL-accredited test lab. NAIL4PET helps develop uniformity in testing and works in close association with ASTM (American Society of Testing Materials).

"Our Name Says It All"

THE ORIGINAL RUBBER-GOODS CHANGE-OUT PROGRAM®

Voltgard's Original Rubber-Goods Change-Out Program® is ideal for utilities, electrical contractors, cable and telecom providers and other large and medium-sized companies and facilities using rubber insulating products.

THE PROGRAM INCLUDES FIVE KEY ELEMENTS:

- Cleaning**
- Visual inspection**
- Electrical testing**
- Markings according to your company's safety protocols**
- Shipment to your warehouse or job site when and where they are needed**

Additionally, Saf-T-Gard has one of the largest new rubber goods inventories in the world and can quickly replace any goods not meeting applicable standards or your company's safety policies.
