RUBBER INSULATING BLANKETS

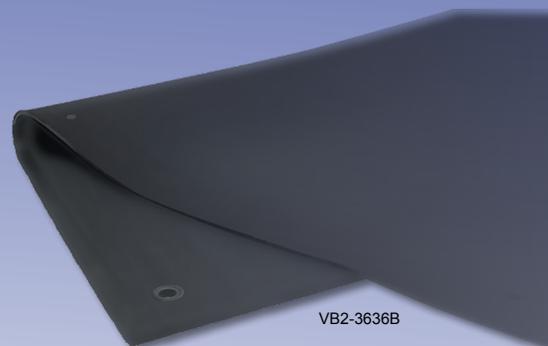

Voltgard® Rubber Insulating Blankets are available in a variety of different classes, sizes, colors and styles to provide the most versatile protection from accidental and incidental contact with energized lines, energized equipment and irregularly-shaped line hardware.

FEATURES & BENEFITS

- ✓ Voltgard Rubber Insulating Blankets are created from exclusive Voltgard rubber formulations for maximum dielectric strength, durability and flexibility
- ✓ Type II EPDM synthetic rubber blankets offer maximum resistance to ozone and UV rays for extended outdoor use
- ✓ Manufactured and tested in accordance with ASTM D1048 as required by OSHA
- ✓ Slotted style blankets are ideal for wrapping around irregularly shaped equipment such as ridge pins or cross-arms with insulators
- ✓ Durable spring-type blanket clamps and Voltgard Zip-Strips™ Blanket Straps are ideal for securing blankets in position
