## SAF-T-GARD® VOLTGARD® V-GRIPS® LEATHER PROTECTOR GLOVES

BRINGING WORKERS HOME SAFELY SINCE 1936

### Gripping Dexterity, Flexibility and Durability

Electrical workers now hold all of the protective power in their hands with the arrival of the new **Saf-T-Gard® Voltgard® V-GRIPS® Leather Protector Gloves**. Available in low-voltage and high-voltage styles, the **Saf-T-Gard® Voltgard® V-GRIPS® Leather Protector Gloves** are manufactured using a proprietary grip-enhancing coating that covers the entire work surface of the gloves (palm, index finger and thumb) to deliver an unsurpassed grip that won't slip or affect the ergonomics of the gloves and provides superior dexterity and flexibility, especially when handling small parts. Furthermore, the durable goatskin leather protects against cuts, abrasions and punctures and will not absorb dirt, oil, grit, grime or moisture.

VLP-214  
Sizes 8-12

VLP-210S  
Sizes 7-12

VLP-210S4C  
Sizes 8-12

### Comfortable Compliance

**Saf-T-Gard® Voltgard® V-GRIPS® Leather Protector Gloves** are crafted by leather glove specialists from a gold, grain goatskin leather that is selected and processed for softness and comfort. The low-voltage styles fit properly over straight cuff industry-standard rubber insulating gloves, while the high-voltage styles fit properly over both straight and bell cuff industry-standard rubber insulating gloves. All styles are dual-sized to fit whole and half sizes in rubber insulating gloves, feature a gunn cut pattern for easy wearing and a leather strap and durable buckle to comfortably secure the gloves to the workers' hands. Ideal for use by utility workers, power and communication linemen, electrical contractors, plant and facility maintenance technicians and electrical field service technicians, the **Saf-T-Gard® Voltgard® V-GRIPS® Leather Protector Gloves** meet ASTM Standard F-696 for Leather Protectors for Rubber Insulating Gloves and Mittens, and have an Arc Rating of at least 28 cal/cm<sup>2</sup>.

### Features and Benefits

- Made from a gold, grain goatskin leather that is selected and processed to be soft, flexible, durable and provide protection against cuts, abrasions and punctures and will not absorb dirt, oil, grit, grime or moisture
- Gunn cut pattern is the longest-lasting construction and provides better wear and comfort
- Proprietary grip-enhancing coating on the palm, index finger and thumb delivers the ideal balance of dexterity, flexibility and grip, especially when handling small parts, without significantly increasing the thickness of the working area of the glove
- The adjustable leather strap and durable buckle comfortably secure the gloves to the workers' hands
- Split leather cuff styles extend protection past the wrist and allow for greater flexibility, comfort and visibility
- Sewn with leather binding to reinforce critical wear areas

The product pictured above is the VLP-212. All of the features of this product are the same as the styles in the VLP-200 series, with the exception of style VLP-210S and VLP-210S4C.

Leather protector gloves should always be worn over rubber insulating gloves to extend their life. Leather protector gloves themselves offer no protection against high or low voltage and should always be worn over rubber insulating gloves.
